### Seller's description

Up for auction is a very peculiar item for the NES. This is a SmartBoy Cartridge which contains Super Mario Bros 2. I wrote a moderately informative article which I will paraphrase here (you can also check out my website for the complete article) regarding the Smart Boy cartridges and their unique history:

These games were distributed by a company named Video Store Services throughout the late 80's and early 90's. VSS specialized in selling fixtures and other miscellaneous items to both video rental chains and independently owned stores. Smart Boy games were created with the intent of offering stores a cheaper alternative to having the 'popular titles' rather than purchasing their officially licensed counterparts. ...these cartridges did not sell very well and were eventually dropped from their product catalog. To date, five different SmartBoy titles have surfaced (Arkanoid, SMB2, Super Mario Bros 3, Teenage Mutant Ninja Turtles and Tetris).

There are currently only two known copies of Super Mario Bros 2 out there, so this is your chance to pick up a very rare and unique item for your collection! Shipping will be \$3.99 to the US and \$6.99 to Canada. If you have any questions,

please feel free to ask. Also, be sure to check out my other auctions for some interesting NES Merchandise, Promotional Items, Store displays and Authorized Service Center Items!
